

OUR PLEDGE TO BRIGHTON AND HOVE

We thank the city for electing so many new Green voices and we welcome the invitation from Labour to discuss how we can work together to make a difference for our residents. Yet political parties are not the only voices. To **achieve truly transformative politics**, we also need to take the conversation about how to tackle these issues back to our communities.

Greens pledge to residents in our city that **we will work with all partners** – from the Labour Party, to our community groups, voluntary sector and local businesses – to deliver urgent action on critical issues; especially our climate crisis, housing and homelessness and austerity.

We would welcome the opportunity to work with Labour Councillors to set up **our shared vision** of a citizen's assembly on the climate crisis. We are also keen to explore a City Climate and Biodiversity Crises Summit. We believe now is the time for cross-party action on housing and homelessness. In the face of national uncertainty from a disastrous Brexit, all parties must jointly uphold our status as a city of sanctuary and welcome.

Over the next four years we will work with the Labour council to achieve what is best for our city. We will never fail to challenge on behalf of our residents, and we will also present new ideas and hold Labour to account when scrutiny is needed. **We pledge to stand up for what is best for our city; and to continue to hold our council to the high standards our city expects and deserves.**
